We have coordinated with the Machinists' Hall and reserved the same space as before. I'll let Doug know and he'll likely publicly confirm the date.

Hi Brad,

Thank you for the update. I appreciate how busy you are. I heard from Doug Clemens that the next full CAG meeting is scheduled for December 7. Doug didn't have any information about a tech committee meeting and referred me to Ed Smith. Ed is out of the office for a couple of days. Since CAG elections are usually held at the December meeting, I am checking with Doug about whether I should plan to attend. I don't want to spend travel funds just for observing elections.

When I hear anything from Ed about the tech committee schedule, I'll let you know.

Terrie

Terrie been juggling many items over the past few weeks in response to public issues raised by media and ongoing field actions and pending legal items (modifications) at the site. So in short, we have not reviewed these items yet. I wouldn't expect a CAG TC meeting this month as those are supposed to occur after the CAG meetings to address potential questions that come from the meeting. I'll call you later today and provide an update. We just had the one in October due to the timing and request of ATSDR's presentation to CAG and their request (originally it would have been in November after the CAG). Recommend not encourage a TC call monthly or other unless following the CAGs. Thanks,

Subject: TASC risk assessment fact sheet for fact check

Hi Brad and Ben,

Attached is a TASC fact sheet on risk assessment requested by the WLL CAG technical committee. After you review it for accuracy, I will send it to the WLL CAG Technical Committee for their review.

Just a reminder – You also are planning to provide comments on the previously sent TASC air monitoring fact sheet and the TCLP fact sheet. If I need to resend these, please let me know.

I haven't been informed of the date/time for the next CAG Technical Committee meeting or the next CAG meeting. Maybe there will not be any meetings in November, but I will check with the CAG.

Thanks.

Terrie
